

A, Quality Assurance Measures :

1, Quality planning :

On the premise of meeting customer requirements and ensuring quality, the Technical Review Committee, together with the assistant-designers, reasonably determines and divides the stages of design, production, installation and commissioning, and formulates detailed progress plans for each stage.

2, Design control:

In the early stage of design, the company's technical evaluation committee will review the painting line and non-standard products, so that the designed products strictly matched with the requirements of national painting equipment and the actual needs of customers.

Design input: collect customer original data in detail, formulate design rules, and determine the design standards and specifications of the project by the assistant -engineers

Design output: ensure the output quality of the design, and the output of the design completely meets the design input requirements.

Design review: Design rules and scheme design must be reviewed by technical review committee, and construction drawing design should be reviewed by technical review committee.

Design verification: ensure that each drawing is passed two inspection and two validation.

Design confirmation: design plan and construction drawing design must be examined and confirmed by customer.

Documentation and data control: The relevant professional engineers ensure that the standards and specifications used by each profession are the latest and effective versions;

Strictly abide by our company's validation system, construction drawings must be approved and signed by the Technical Review Committee before they can be deliver goods

Strictly abide by our company's signing system, all design changes must be notified to the relevant assistant-engineers to make corresponding changes;

All finished drawings must be filed in time according to the requirements of our company.

3, Quality control for manufacturing department

Strengthen the quality assurance system and quality protection measures of equipment manufacturing department. Our company is specially manning with quality inspectors to strictly control product processing quality.

All purchasing requirements put forward by our company must go through the project and be approved and signed by the project manager before they can be implemented.

Program control:

The content of the programmed control is strictly controlled according to the design operation control procedure.

4, Inspection and experiment

The manufacturing standards for each sub-item equipment shall be formulated by the design engineers in consultation with the manufacturing department, and shall be submitted to the manufacturing department after the approval of the Technical Review Committee.

B: Service Content:

- 1, Equipment planning, production, installation, commissioning.
- 2, Provide complete information, including equipment drawing, electrical circuit control chart and use maintenance instruction.
- 3, Equipment troubleshooting method.
- 4, Provide the list of consumables to assist customers in establishing a comprehensive equipment maintenance system.
- 5, After the equipment is delivered to the customer, our company will send professionals to track the customer equipment for 60 days.
- 6, If customer has a device failure in the process of using the device, our company will operate the device remotely through the computer network through the authorization given by the customer, and eliminate all equipment failure problems.
- 7, Any problems with the equipment, our company guarantees to give solutions within 12 hours.
- 8, The warranty period of the equipment is 2 years. In 2 years, spare parts will be provided free of charge for any problems caused by non-human factors.

ATTESTATION CERTIFICATE OF MACHINERY AND LOW VOLTAGE DIRECTIVES

Technical file of the company mentioned below has been observed and audit has been completed successfully. 2006/42/EC Machinery Directive and

2014/ 35/EU Low Voltage Directive have been taken as references for these processes

Company Name : Hebei Hanna Technology Co., Ltd.

Company Address : Room No.2401 Unit 2 Zhong Heng Mansion No.28 Jian Hua North Street Chang An District, Shi Jia Zhuang City, He Bei Province, China

Related Directives and Annex : Low Voltage Directive 2014/35/EU
Machinery Directive 2006/42/EC

Related Standards : EN ISO 12100:2010; EN 60204-1:2018

Product Name : Powder Coating Equipment

Report No and Date : JAT-CE2292-0058

Product Brand/Model/Type : FA, SA, MA, WP, NP, CP, FP, DS, CS, BRS, TUS, BOS, ES, CTS,
PS, MP, SP, PR, AE, LAS

Certificate Number : M.2019.206.C2829

Initial Assessment Date : 17.09.2019

Registration Date : 18.09.2019

Reissue Date/No :

Expiry Date : 17.09.2024

UDEM International Certification
Auditing Training Centre Industry
and Trade Inc. Co.

The validity of the certificate can be checked through www.udem.com.tr. The CE mark shown on the right can only be used under the responsibility of the manufacturer with the completion of EC Declaration of Conformity for all the relevant Directives. This certificate remains the property of UDEM International Certification Auditing Training Centre Industry and Trade Inc. Co. to whom it must be returned upon request. The above named firm must keep a copy of this certificate for 15 years from the registration of certificate. This certificate only covers the product(s) stated above and UDEM must be noticed in case of any changes on the product(s)

Report Number: QIP-ASI196020

Audit Date : 22 Jan.,2019

This report is issued by Focus Technology Co., Ltd. (Made-in-China.com) and the supervising inspectorate (SGS-CSTC Standards Technical Services Co., Ltd.) to confirm that:

Company Name : Hebei Hanna Technology Co., Ltd.
河北汉纳科技有限公司
Showroom : <http://hannapowdercoating.en.made-in-china.com>
Address : Room 5A01, Block B, Zhengyang City Square, Zhongshan Road,
Chang'an District, Shijiazhuang, Hebei, China
Product : Powder Coating Line, Spray Paint Machine

has been on site audited for the Following Scope of Activity

1. General Information
2. Foreign Trade Capacity
3. Product Research & Development Capacity
4. Production Capacity & Quality Control
---the audit content of this part relates only to its associated enterprise
5. Working Environment
6. Energy Saving and Emission Reduction
7. Photos

General Comments:

Hebei Hanna Technology Co., Ltd. is a manufacturer with 15 employees; it was established in 2014, the offices located in Room 5A01, Block B, Zhengyang City Square, Zhongshan Road, Chang'an District, Shijiazhuang City. The offices occupy an area of more than 80 square meters. Hebei Hanna Technology Co., Ltd. has successful foreign trading experience in Europe, South America and Southeast Asia.
